Professional Summary

Detail-oriented UI/UX Designer specializing in clean, modern, and minimalist interfaces. Passionate about translating complex data into intuitive, user-friendly dashboards and web extensions. Strong advocate for Tailwind-style spacing and consistent typography.

Skills

Design Tools: Figma, Adobe XD, Sketch, Adobe Creative Suite

UX Research: Wireframing, Prototyping, User Flow, Usability Testing

Design Concepts: Data Visualization, Minimalist Design, Typography, Light/Dark Theme Structuring

Experience & Projects

Sports Analytics Dashboard Design

Mar 2026 - May 2026

- Designed a comprehensive UI for a sports analytics platform, focusing on player statistics and ranking engines.
- Created wireframes and high-fidelity prototypes in Figma featuring intuitive filtering and sorting components.
- Developed a light theme utilizing a calm, trustworthy color palette with yellow and white accents.

Browser Extension UI/UX

Jan 2026 - Feb 2026

- Crafted the layout for a browser sidebar extension designed to act as an intelligent assistant.
- Focused on a modern, minimal aesthetic that seamlessly integrates with existing web interfaces.
- Established a cohesive design system for buttons, inputs, and typography leveraging Tailwind CSS principles.

Education

Bachelor of Design (B.Des)

2022 - 2026

National Institute of Design | Specialization in Interaction Design
