Professional Summary

Data Analyst and AI Automation Enthusiast with a knack for optimizing workflows and extracting actionable insights from large datasets. Experienced in leveraging Large Language Models (LLMs) like Gemini for workflow automation and data processing.

Technical Skills

Programming: Python, Google Apps Script, JavaScript

Data Analysis: Pandas, NumPy, SQL, Excel, Data Cleansing

AI & Automation: Gemini API, Prompt Engineering, Process Automation

Projects

Automated Email Summarization Pipeline

Aug 2025 - Nov 2025

- Developed a Google Apps Script to automatically scan, categorize, and process incoming emails.
- Integrated the Gemini API to summarize email content and determine sentiment (positive, negative, neutral).
- Debugged and optimized script execution environments to ensure high reliability.

Institutional Attendance Data Analysis

Jan 2026 - Feb 2026

- Analyzed comprehensive attendance datasets across multiple AM/PM sessions using Python and Pandas.
- Identified key patterns regarding data availability timing and reporting delays.
- Generated automated summary reports to assist administrative decision-making.

Education

B.Sc. in Data Science and Analytics

2021 - 2024

Christ University, Bengaluru | First Class Honors
